

## Introduction

This trial is to use *ucharclasses.sty* to easily switch between Devanagari and Latin scripts without additional L<sup>A</sup>T<sub>E</sub>X directives.

यह परीक्षण लेटेक निर्देशों के बिना, आसानी से, हिन्दी और अंग्रेजी के बीच स्विच करने के लिए ucharclasses का उपयोग करता है।

## Vedic Sanskrit in Devanagari Script

This document shows how to use the combining marks and characters from Devanagari, DevanagariExtended and VedicExtensions Unicode blocks to display the Vedic marks in red color.
